Sahaj Bhadja

(213) 284-4651 bhadja@usc.edu sahaj-bhadja sahajbhadja sahaj-bhadja

Summary

Software Engineer with 2+ years building **digital platform features**, **data-backed services**, and **customer-facing workflows** using JavaScript/TypeScript, Python, SQL, and cloud tooling in agile, cross-functional environments.

Education

University of Southern California, Los Angeles, CA **August 2024 – May 2026**
Master of Science in Computer Science *GPA: 3.75/4*
Coursework: Analysis of Algorithms, Database Systems, Web Technologies

Pandit Deendayal Energy University, Gandhinagar, India **November 2020 – May 2024**
Bachelor of Technology in Computer Science and Engineering *GPA: 3.88/4*
Coursework: Object-Oriented Programming, Software Engineering, Operating Systems, Data Retrieval

Experience

USC Dornsife **LA, California**
Software Engineer *September 2025 - Present*
- Developed and iterated digital platform services across **Azure SQL/PostgreSQL** for 500+ users, reducing dashboard latency from **1.2s to 350ms** through query and schema optimization.
- Implemented 5K+ monthly validation/release workflows with reconciliation checks, improving reliability and operational transparency for business-facing processes.

Grad8 **LA, California**
Software Engineer Intern *June 2025 - August 2025*
- Built customer-facing full-stack features in a **Flask + React** application handling **10K+ daily requests**, translating evolving requirements into scalable workflows.
- Improved release velocity via CI/CD controls with GitHub Actions, reducing turnaround time by **60%** while maintaining quality in a fast-changing environment.

Aasma Technology Solutions **India**
Software Developer Engineer - (SecureSync) *August 2023 - July 2024*
- Contributed to cross-functional software deliveries by implementing API/ETL components with OOP, AWS Glue, and S3, improving response times by **30%**.
- Maintained 20+ unit/integration suites and release checks across 3 OS environments, increasing pipeline efficiency by **68%** and improving handoff quality.

USC AD Labs **Los Angeles, CA**
ML Research Assistant *January 2025 - May 2025*
- Built **data and simulation pipelines** processing **100K+ trajectory logs**, improving test reproducibility and cross-team debugging for platform experiments.
- Documented validation outputs and issue triage workflows, improving engineering handoffs and reducing iteration friction in collaborative delivery cycles.

Aasma Technology Solutions **India**
Full Stack Developer Intern - (VibrantChem) *May 2023 - August 2023*
- Built **REST APIs** and **WebSocket** modules supporting 8+ workflows and 2M+ synchronized records, enabling reliable business-process automation.
- Automated deployment/testing with **Jenkins**, **Docker**, and release checks, reducing deployment time by **50%** and improving consistency.

Skills

Languages: **JavaScript/TypeScript**, **Python**, Java, SQL, C++
Software Engineering: OOP, SDLC, application design, troubleshooting, debugging, release management
Web & Platform: React.js, Node.js, Express.js, Flask, FastAPI, REST APIs, responsive web workflows
Data & Cloud: PostgreSQL, MySQL, SQL Server, MongoDB, Azure SQL, AWS (S3, Glue, RDS)
DevOps & Quality: Git, GitHub Actions, Jenkins, Docker, Kubernetes, CI/CD, unit/integration testing
Collaboration: cross-functional teamwork, technical communication, mentorship receptiveness, agile delivery

Projects

FinNexus Live | *Next.js, TypeScript, Kubernetes, MongoDB*
- Developed scalable platform workflows for **50K+ users** and **1M+ transactions** with real-time updates and robust backend integrations.

Chat2SQL Code | *Java, TypeScript, SQL, Maven, Docker*
- Built a multi-database developer platform supporting 10+ databases with schema-aware query generation, execution validation, and maintainable modular services.

HMIS Live | *MERN, TypeScript, ABDM APIs, Twilio*
- Designed API-driven operational workflows supporting **100+ daily appointments** and **2x faster** record retrieval with structured monitoring and process controls.
