Sahaj Bhadja

(213) 284-4651 bhadja@usc.edu sahaj-bhadja sahajbhadja sahaj-bhadja

Summary

Web-focused software engineer with 2+ years delivering **content-rich front-end experiences**, **CMS-integrated workflows**, and **SEO-aware page optimization** using HTML/CSS/JavaScript, React, and analytics-driven iteration.

Education

University of Southern California, Los Angeles, CA **August 2024 – May 2026**
Master of Science in Computer Science *GPA: 3.75/4*
Coursework: Analysis of Algorithms, Database Systems, Web Technologies, Advanced NLP

Pandit Deendayal Energy University, Gandhinagar, India **November 2020 – May 2024**
Bachelor of Technology in Computer Science and Engineering *GPA: 3.88/4*
Coursework: Software Engineering, Operating Systems, Object-Oriented Programming, Data Retrieval

Experience

USC Dornsife **LA, California**
Software Engineer *September 2025 - Present*

- Built and maintained **user-facing web interfaces** for 500+ users, reducing page/data latency from **1.2s to 350ms** through front-end optimization and backend query improvements.
- Implemented **content publishing safeguards** and validation workflows for 5K+ monthly jobs, improving reliability, quality checks, and cross-browser consistency in production releases.

Grad8 **LA, California**
Software Engineer Intern *June 2025 - August 2025*

- Developed **React + Flask web features** handling 10K+ daily requests, translating UX/content requirements into reusable components, responsive layouts, and maintainable API-backed pages.
- Improved **CI/CD and QA feedback loops** with automated checks and structured defect triage, reducing release turnaround by **60%** while preserving content quality.

USC AD Labs **Los Angeles, CA**
ML Research Assistant *January 2025 - May 2025*

- Built **data visualization and reporting pipelines** over 100K+ logs, creating actionable summaries and technical narratives that improved stakeholder decision-making and site content planning.
- Produced **debugging diagnostics and documentation** that improved collaboration across teams and accelerated issue resolution for technical content delivery systems.

Aasma Technology Solutions **India**
Software Developer Engineer - (SecureSync) *August 2023 - July 2024*

- Engineered **API/ETL web service integrations** with Python, AWS Glue, and S3, improving response time by **30%** and supporting reliable content/data delivery pipelines.
- Maintained **20+ automated test suites** with Jenkins, PyTest, and Mockito, improving pipeline efficiency by **68%** and reducing recurring web release issues.

Aasma Technology Solutions **India**
Full Stack Developer Intern - (VibrantChem) *May 2023 - August 2023*

- Implemented **MERN + WebSocket modules** across eight workflows and 2M+ synchronized records, improving real-time content updates and user-facing interaction responsiveness.
- Automated **Docker/Jenkins deployment workflows**, reducing release time by **50%** and improving consistency of content delivery across staging and production channels.

Skills

Frontend: **HTML5**, **CSS3**, **JavaScript**, React, responsive UI, cross-browser compatibility
CMS & Content: WordPress/SharePoint-style CMS workflows, multimedia integration, publishing governance, proofreading
SEO & Analytics: keyword optimization, metadata/content structure, web traffic analysis, performance monitoring
Backend & Data: Flask/FastAPI, REST APIs, SQL, content delivery integrations, QA/test automation
Tooling: Adobe Creative Suite familiarity, Git, Jenkins, Docker, CI/CD, Agile collaboration and communication

Projects

Content Performance Hub | *React, JavaScript, SQL, Google Analytics API*

- Built a **web content analytics dashboard** for traffic, engagement, and conversion insights, enabling data-backed iteration on content strategy and improving publishing effectiveness.

FinNexus Live | *Next.js, TypeScript, Kubernetes, MongoDB*

- Developed a **responsive full-stack platform** serving 50K+ users and 1M+ transactions with optimized UX flows, reliable APIs, and production-grade operational stability.

Chat2SQL Code | *Java, TypeScript, SQL, Docker*

- Designed a **query assistant for content analysts** with schema-aware validation and explainable results, reducing data retrieval friction for reporting and editorial workflows.
