Sahaj Bhadja

(213) 284-4651 sahaj.bhadja@gmail.com sahaj-bhadja sahajbhadja sahaj-bhadja

Summary

Software Developer with 2+ years building **Java, SQL, full-stack web applications**, REST services, relational data integrations, and secure multi-tier systems through collaborative Agile software delivery.

Education

University of Southern California, Los Angeles, CA **August 2024 – May 2026**
Master of Science in Computer Science *GPA: 3.75/4*
Coursework: Database Systems, Web Technologies, Analysis of Algorithms, Advanced NLP

Pandit Deendayal Energy University, Gandhinagar, India **November 2020 – May 2024**
Bachelor of Technology in Computer Science and Engineering *GPA: 3.88/4*
Coursework: Software Engineering, Data Structures, Object-Oriented Programming, Operating Systems

Experience

USC Dornsife **September 2025 – Present**
Software Engineer *Los Angeles, CA*

- Reworked asynchronous FastAPI orchestration with explicit job states and failure isolation, processing 1K+ concurrent AI jobs at 3x throughput while sustaining **multi-tier application reliability, monitoring, and maintainable backend logic**.
- Optimized indexed Azure SQL queries and row-level isolation for 500+ users, cutting latency from 1.2 seconds to 350 milliseconds through **relational database design, query tuning, and production troubleshooting**.

Grad8 **June 2025 – August 2025**
Software Engineer Intern *Los Angeles, CA*

- Delivered React and Flask workflows for uploads, grading history, model controls, and feedback, supporting 150+ instructors and 10K+ daily requests through **full-stack development, REST integration, and Agile releases**.
- Built concurrent Python ingestion for PDF, DOCX, ZIP, OCR, and multimodal routing, processing 1K+ files per batch while reducing turnaround 60% through **automated testing, debugging, and detailed validation**.

Aasma Technology Solutions **August 2023 – July 2024**
Software Developer Engineer - (SecureSync) *India*

- Designed cross-platform services and database integrations using object-oriented patterns, AWS Glue, S3, and caching, improving response times 30% while reducing technical debt 20% across distributed production applications.
- Automated 20+ unit and integration suites with PyTest, Mockito, Jenkins, and virtual machines across Windows, Linux, and macOS, strengthening **Git-based collaboration, CI/CD, release validation, system reliability, and maintainability**.

Aasma Technology Solutions **May 2023 – August 2023**
Full Stack Developer Intern - (VibrantChem) *India*

- Built React and Node.js services for authentication, billing, permissions, and notifications, synchronizing 2M+ records through **REST APIs, WebSockets, reusable TypeScript interfaces, and role-aware multi-layer workflows** across locations.
- Automated Docker and Jenkins delivery, reducing deployment time 50% while using Sentry, Azure Monitor, and Kibana for **application logging, issue diagnosis, and reliable production releases** across environments.

LST Capitals **November 2022 – January 2023**
Web Developer Intern *India*

- Translated client requirements into technical specifications for 12+ integrations, mapping booking, payment, coupon, and status workflows before implementation to **improve solution design, team alignment, and delivery accuracy by 25%**.
- Built Flask APIs for cross-platform booking and payment workflows, supporting 50K+ records with sub-200-millisecond responses while delivering **integration testing, technical documentation, demonstrations, and production support** during reviews.

Skills

Languages & Web: Java, Python, TypeScript, JavaScript, SQL, React, Node.js, HTML5, CSS3, Bootstrap
Architecture: Multi-Tier Architecture, OOP, Design Patterns, REST APIs, Microservices, MVC, Client-Server Systems, RBAC
Data: SQL Server, PostgreSQL, Azure SQL, MySQL, Redis, Relational Databases, Schema Design, Query Optimization
Cloud & DevOps: AWS, Azure, Docker, Kubernetes, Jenkins, GitHub Actions, CI/CD, Git, Linux, Terraform
Engineering: Unit Testing, Integration Testing, Mockito, PyTest, Agile, SDLC, Debugging, Code Reviews, Documentation, Security

Projects

Federal Case Management Portal | *Java, Spring Boot, React, TypeScript, SQL Server*

- Designed a **multi-tier government case portal** with Java services, React workflows, SQL Server schemas, role-based access, audit histories, validation rules, and responsive interfaces for dependable records processing.

Public Records Workflow Engine | *Java, REST APIs, SQL Server, JWT, Docker, Jenkins*

- Built a **database-driven workflow application** supporting configurable reviews, document metadata, approvals, and status tracking through secured REST APIs, transactional SQL operations, automated tests, and repeatable containerized deployments.

Chat2SQL | *Java, TypeScript, SQL, PostgreSQL, MySQL, Docker* | Code

- Built an **AI-powered SQL development workspace** supporting 10+ databases, accelerating query authoring, schema exploration, and data management through a unified Java and TypeScript interface with Docker-based deployment.
