Sahaj Bhadja

(213) 284-4651 sahaj.bhadja@gmail.com sahaj-bhadja sahajbhadja sahaj-bhadja

Summary

Web developer with 2+ years building responsive, user-facing web experiences with **HTML**, **CSS**, **JavaScript**, and React, plus analytics-driven optimization, troubleshooting, documentation, and Agile delivery alongside UX, product, and business teams.

Education

University of Southern California, Los Angeles, CA **August 2024 – May 2026**
Master of Science in Computer Science *GPA: 3.75/4*
Coursework: Web Technologies, Database Systems, Analysis of Algorithms, Advanced NLP

Pandit Deendayal Energy University, Gandhinagar, India **November 2020 – May 2024**
Bachelor of Technology in Computer Science and Engineering *GPA: 3.88/4*
Coursework: Software Engineering, Object-Oriented Programming, Data Retrieval, Operating Systems

Experience

USC Dornsife **September 2025 – Present**
Software Engineer *Los Angeles, CA*

- Improved **page performance** for a 500+ user web platform by tuning schemas and indexed queries behind its dashboards, cutting load latency from 1.2s to 350ms for every tenant.
- Built backend integrations with validation and reconciliation checks that kept platform data accurate across 5K+ monthly jobs, shipping changes through CI/CD at 99%+ reliability with **documented** workflows.

Grad8 **June 2025 – August 2025**
Software Engineer Intern *Los Angeles, CA*

- Built a **React** web interface with upload forms, question management, and grading-history views, serving 150+ instructors and 10K+ daily requests through GitHub Actions deployments to Vercel and Render on AWS.
- **Troubleshot** front-end and backend issues such as OCR timeouts and model failures with fallback routing, keeping the site responsive at peak load and cutting instructor feedback turnaround 60%.

Aasma Technology Solutions **August 2023 – July 2024**
Software Developer Engineer – SecureSync *India*

- Improved experience for **low-bandwidth** users by trimming API payloads with pagination, caching, and field filtering, cutting response times 30% while working in **Agile** sprints with Microsoft stakeholders.
- Took features from requirements through deployment with 20+ automated tests in nightly Jenkins pipelines, and documented build, test, and release workflows with CSV reports for the team.

Aasma Technology Solutions **May 2023 – August 2023**
Full Stack Developer Intern – VibrantChem *India*

- Built responsive **JavaScript** and React pages for customer records, billing, and leads with real-time WebSocket updates, tested end to end with Selenium and Jest before every release.
- Used **Google Analytics** on feature usage, traffic sources, load times, and drop-off points to guide page fixes that lifted lead conversions 15% and cut resource wastage 42%.

LST Capitals **November 2022 – January 2023**
Web Developer Intern *India*

- Built a **React and TypeScript** web dashboard for bookings, pricing, and coupons with responsive layouts, improving cross-platform compatibility 15% across Android, iOS, and web clients with sub-200ms responses.
- Designed page and system flows in **Figma**, cutting design errors 25%, and presented the end-to-end design to the client before implementation to align on business requirements and mapped integration points.

Skills

Front-End: HTML, CSS, JavaScript, TypeScript, React, Next.js, Angular.js, TailwindCSS, Responsive Design
Web Platforms: REST APIs, Node.js, Flask, Vercel, Firebase, Figma, WebSockets, Linux, Docker
Analytics & Testing: Google Analytics, Tableau, Selenium, Jest, PyTest, Performance Optimization
Delivery: Agile/Scrum, Git, GitHub Actions, CI/CD, Jenkins, Documentation, Troubleshooting, Code Reviews, Debugging
Other: Python, SQL, PostgreSQL, MySQL, AWS, Stakeholder Communication, Requirements Gathering

Projects

Accessible Campaign Landing Pages | *HTML, CSS, JavaScript, Bootstrap, Optimizely*

- Designed reusable **landing page** components and a loan-rate form built to **WCAG** standards with keyboard navigation and screen-reader labels, set up for A/B tests on headlines and calls to action.

Personalized Member Content Blocks | *JavaScript, CMS, Google Analytics, SEO*

- Designed CMS content blocks that show different offers by **audience segment**, with structured SEO metadata and analytics events that measure clicks and conversions for each **variant** in every campaign.

FinNexus Live | *Next.js, TypeScript, TailwindCSS, Plaid*

- Built a responsive **banking** web app with Next.js and TailwindCSS, Plaid account linking, and real-time transaction updates with filtering, supporting 50,000+ users and 1M+ transactions with CI/CD deployments.
