Sahaj Bhadja

(213) 284-4651 sahaj.bhadja@gmail.com sahaj-bhadja sahajbhadja sahaj-bhadja

Summary

Security-minded full-stack developer with 2+ years building **Next.js**, TypeScript, and TailwindCSS apps on **Supabase** and PostgreSQL with **Row Level Security**, deploying on Vercel, and shipping healthcare and education software.

Education

University of Southern California, Los Angeles, CA **August 2024 – May 2026**
Master of Science in Computer Science *GPA: 3.75/4*
Coursework: Web Technologies, Database Systems, Analysis of Algorithms, Advanced NLP

Pandit Deendayal Energy University, Gandhinagar, India **November 2020 – May 2024**
Bachelor of Technology in Computer Science and Engineering *GPA: 3.88/4*
Coursework: Software Engineering, Data Retrieval, Object-Oriented Programming, Operating Systems

Experience

USC Dornsife **September 2025 – Present**
Software Engineer *Los Angeles, CA*

- Designed multi-tenant **PostgreSQL** schemas with **Row Level Security** enforcing least-privilege data isolation for 500+ users of an education platform, and tuned indexed queries to cut latency from 1.2s to 350ms.
- Built integration pipelines across FastAPI, **Supabase**, SQL Server, and cloud storage with incremental loads, reconciliation checks, and CI/CD-backed releases, sustaining 99%+ reliability over 5K+ monthly production jobs.

Grad8 **June 2025 – August 2025**
Software Engineer Intern *Los Angeles, CA*

- Built a React web app with REST APIs and MySQL, deployed through GitHub Actions to **Vercel**, Render, and AWS, serving 150+ instructors and 10K+ daily requests with authenticated sessions.
- Designed **secure file ingestion** for PDF, DOCX, and ZIP uploads with multithreaded batch processing, and debugged production timeouts and model failures with fallback routing to cut feedback turnaround 60%.

Aasma Technology Solutions **August 2023 – July 2024**
Software Developer Engineer – SecureSync *India*

- Wrote 20+ automated unit and integration **regression** test suites with PyTest and Mockito in nightly Jenkins pipelines, publishing coverage reports and failure logs across Windows, Linux, and macOS.
- **Optimized** REST API integrations with pagination, field filtering, and caching, improving response times 30% and cutting technical debt 20% while refining requirements with stakeholders in Agile sprints.

Aasma Technology Solutions **May 2023 – August 2023**
Full Stack Developer Intern – VibrantChem *India*

- Built a **TypeScript** React platform with JWT authentication, role-based access, and **real-time WebSocket** updates for billing, records, and leads, encrypting Azure SQL data and syncing 2M+ records.
- Ran **Snyk and OWASP** dependency scans, linting, and static analysis with Jest and Selenium tests in CI/CD before approval-gated releases, reaching 95%+ successful build validation across all release runs.

LST Capitals **November 2022 – January 2023**
Web Developer Intern *India*

- Built **scheduling** APIs for time-slot bookings with transactional locking to prevent double bookings, plus a React TypeScript dashboard with Firebase real-time updates across 50K+ booking records on mobile and web.
- Integrated third-party **billing** and payment providers with PCI-compliant handling and idempotent webhooks for refunds and disputes, cutting manual refund handling about 70% across 50K+ booking and payment records.

Skills

Languages: TypeScript, JavaScript, SQL, Python, HTML, CSS
Frontend: Next.js, React, TailwindCSS, Shadcn, Responsive Design, WebSockets
Backend & Data: Supabase, PostgreSQL, Row-Level Security, Schema Design, REST APIs, Node.js, FastAPI, Firebase
Security: JWT, Role-Based Access, Encryption, Least Privilege, Snyk, OWASP, Static Analysis, Linux, Debugging
Delivery: Vercel, GitHub Actions, CI/CD, Docker, Jest, Selenium, PyTest, Git, Code Reviews, Documentation, Agile

Projects

Therapy Session Notes Portal | *Next.js, Supabase, PostgreSQL RLS, TailwindCSS, Playwright*

- Designed a **HIPAA**-minded portal where clinicians record therapy session notes, with Supabase RLS policies by care team, audit logs of every read, and accessible forms tested with **Playwright**.

EHR Scheduling Integration | *TypeScript, Supabase Edge Functions, FHIR, Webhooks*

- Designed **Edge Functions** that sync patient appointments from an EHR via **FHIR** APIs, map them to clinician calendars, and push real-time updates through Supabase Realtime subscriptions to the care team.

HMIS – Hospital Management Information System Live | *MERN, TypeScript, ABDM APIs, Twilio, TailwindCSS*

- Won Smart India Hackathon with a **healthcare** platform providing consent-based patient record access through ABDM APIs, appointment workflows, and Twilio reminders, reducing hospital administrative workload 30% across 100+ daily appointments.
