Sahaj Bhadja

(213) 284-4651 bhadja@usc.edu sahaj-bhadja sahajbhadja sahaj-bhadja

Summary

Web-focused software engineer pursuing an MSCS at USC with 2+ years building responsive platforms, APIs, automations, and AI-assisted workflows. Strong in HTML/CSS, JavaScript/TypeScript, React, Node.js, Python, REST APIs, Git, CMS-style content flows, documentation, testing, analytics-ready instrumentation, and performance-minded delivery.

Education

University of Southern California, Los Angeles, CA **August 2024 – May 2026**
Master of Science in Computer Science *GPA: 3.75/4*
Coursework: Analysis of Algorithms, Database Systems, Web Technologies, Advanced NLP

Pandit Deendayal Energy University, Gandhinagar, India **November 2020 – May 2024**
Bachelor of Technology in Computer Science and Engineering *GPA: 3.88/4*
Coursework: Software Engineering, Operating Systems, Object-Oriented Programming, Data Retrieval

Experience

USC Dornsife **Los Angeles, CA**
Software Engineer *September 2025 – Present*
- Maintained SQL-backed web workflows for **500+** users, translating stakeholder requests into API changes, validation logic, release tasks, and reusable documentation.
- Improved platform performance by tuning indexed queries, background jobs, and CI/CD releases, reducing dashboard latency from **1.2s to 350ms** while supporting production handoffs.

Grad8 **Los Angeles, CA**
Software Engineer Intern *June 2025 – August 2025*
- Developed responsive React and Flask features handling **10,000+** daily requests, integrating REST APIs, file uploads, OCR, and AI services into web workflows.
- Created repeatable debugging notes, test cases, and support documentation for content-heavy grading flows, reducing instructor feedback turnaround by **60%**.

USC AD Labs **Los Angeles, CA**
ML Research Assistant *January 2025 – May 2025*
- Built Python evaluation pipelines across **100,000+** records, producing structured metrics, logs, and visual summaries for AI/ML model analysis and data quality.
- Documented prompt, evaluation, and reporting workflows for researchers, turning ad hoc experiments into repeatable processes with clearer technical handoffs.

Aasma Technology Solutions **India**
Software Developer Engineer - (SecureSync) *August 2023 – July 2024*
- Engineered API and ETL integrations using Python, AWS Glue, and S3, improving response time by **30%** while supporting scalable data collection workflows.
- Maintained Jenkins pipelines and **20+** automated test suites using PyTest and Mockito, increasing CI reliability by **68%** and improving release documentation.

Aasma Technology Solutions **India**
Full Stack Developer Intern - (VibrantChem) *May 2023 – August 2023*
- Built MERN platform features with REST APIs, WebSockets, and responsive interfaces, supporting **2M+** synchronized records across modular product workflows.
- Automated Docker-based build/test flows with Jenkins, cutting release time by **50%** and improving deployment consistency, troubleshooting, and team documentation.

Skills

Web: HTML5, CSS, JavaScript, TypeScript, React, Next.js, responsive design, accessibility basics, CMS-style workflows
Backend & Data: Node.js, Python, Flask, REST APIs, SQL, PostgreSQL, MySQL, MongoDB, AWS S3/Glue/EC2, C#/.NET familiarity
AI & Automation: AI-assisted coding, prompt workflows, OCR/LLM integrations, scripting, data instrumentation, analytics-ready logging
Delivery: Git, GitHub, CI/CD, Docker, Jenkins, QA testing, documentation, performance tuning, stakeholder support, Agile/Scrum

Projects

PiXMod Live | *Next.js, MongoDB, Stripe, Transformers*
- Built a responsive SaaS web app with image workflows, semantic search, premium billing, and polished content-heavy UX, increasing user upgrade conversion by **18%**.

HMIS Code | *MERN, TypeScript, ABDM APIs, Sentry*
- Built healthcare web workflows integrating patient, provider, claims, notifications, and monitoring features with secure APIs, structured validation, and quality-oriented reliability.

Big-Brain Live | *LLaMA-2, FAISS, PostgreSQL, GCP*
- Built a secure document Q&A platform with semantic search, summarization, and prompt workflows over **50K+** records, reducing review time by **60%**.
