Sahaj Bhadja

(213) 284-4651 sahajbhadja10@gmail.com sahaj-bhadja sahajbhadja sahaj-bhadja

Summary

Web Developer with 2+ years building **business applications**, responsive interfaces, and relational systems using **C#, ASP.NET Core, JavaScript, SQL Server**, automated testing, secure design patterns, and CI/CD.

Education

University of Southern California, Los Angeles, CA **August 2024 – May 2026**
Master of Science in Computer Science *GPA: 3.75/4*
Coursework: Web Technologies, Database Systems, Analysis of Algorithms, Advanced NLP

Pandit Deendayal Energy University, Gandhinagar, India **November 2020 – May 2024**
Bachelor of Technology in Computer Science and Engineering *GPA: 3.88/4*
Coursework: Object-Oriented Programming, Software Engineering, Operating Systems, Data Retrieval

Experience

USC Dornsife **September 2025 – Present**
Software Engineer *Los Angeles, CA*

- Architected a **multi-tenant relational application** with normalized schemas, row-level isolation, and indexed SQL queries, reducing dashboard latency from 1.2 seconds to 350 milliseconds while supporting 500+ users.
- Built integration services across FastAPI, SQL Server, PostgreSQL, and cloud storage, processing 5K+ monthly jobs with **validation, reconciliation, error handling, and CI/CD** while maintaining 99%+ production reliability.

Grad8 **June 2025 – August 2025**
Software Engineer Intern *Los Angeles, CA*

- Delivered **React and Flask application features** for uploads, grading history, and feedback, supporting 150+ instructors and 10K+ daily requests through responsive interfaces and maintainable REST APIs in production.
- Implemented multithreaded processing and automatic fallbacks for 1K+ files per batch, reducing turnaround 60% while validating changes through **unit testing, debugging, code reviews, and CI/CD** releases safely.

Aasma Technology Solutions **August 2023 – July 2024**
Software Developer Engineer – SecureSync *India*

- Designed integration modules with **object-oriented patterns**, including Singleton and Factory, reducing API response times 30%, technical debt 20%, and duplicated logic across a scalable microservice-based data-sharing application.
- Automated 20+ **unit and integration tests** using PyTest, Mockito, and Jenkins across Windows, Linux, and macOS, collaborating through Agile reviews and Git workflows to improve release confidence.

Aasma Technology Solutions **May 2023 – August 2023**
Full Stack Developer Intern – VibrantChem *India*

- Built a **C# and ASP.NET Core web application** with React, Azure SQL, REST APIs, authentication, billing, permissions, and notifications, synchronizing 2M+ records across distributed locations through reliable services.
- Owned eight services through implementation and deployment, adding **automated testing, secure dependency checks, monitoring, Docker, and Jenkins CI/CD** that cut release time 50% while sustaining 95%+ reliability.

LST Capitals **November 2022 – January 2023**
Web Developer Intern *India*

- Built **React and TypeScript business workflows** for booking, pricing, coupons, and payment-status updates, serving 50K+ records through Flask APIs with sub-200-millisecond responses and JWT-secured access across customer workflows.
- Designed 12+ **system and third-party integrations** for payments, synchronization, and webhooks, documenting workflows and incorporating client feedback before implementation to reduce design errors 25% across delivery cycles.

Skills

Languages & Web: C#, JavaScript, TypeScript, SQL, HTML5, CSS3, Python, Java, XML, JSON, Bash, Shell
Applications & APIs: .NET, ASP.NET Core, React.js, Node.js, Flask, FastAPI, REST APIs, Webhooks, Microservices, Client-Server Architecture
Databases: SQL Server, Azure SQL, PostgreSQL, MySQL, MongoDB, Firebase, Relational Databases, Schema Design, Query Optimization, Indexing
Testing & Delivery: Unit Testing, Integration Testing, NUnit, PyTest, Mockito, Jest, Git, JIRA, Jenkins, GitHub Actions, CI/CD, Docker
Engineering: Object-Oriented Design, Design Patterns, Secure Coding, Debugging, Production Support, Code Reviews, Requirements Analysis, Technical Documentation, Agile/Scrum, Release Management, Monitoring

Projects

BenefitFlow Portal | *C#, ASP.NET Core, SQL Server, HTML, CSS, JavaScript, NUnit*

- Designed a **C# and ASP.NET Core** benefits-administration portal with HTML, CSS, JavaScript, SQL Server, role-based access, structured logging, and NUnit coverage for enrollment, billing, and eligibility workflows.

ReleaseAssist Console | *C#, ASP.NET Core, React, SQL Server, Git, CI/CD*

- Built a **production-support dashboard** using C#, ASP.NET Core, SQL Server, and React to triage defects, document resolutions, track deployments, and validate releases through unit and integration test suites.

HMIS – Hospital Management Information System Live | *MERN, TypeScript, ABDM APIs, Twilio, Sentry*

- Won Smart India Hackathon by building a TypeScript **healthcare workflow platform** for consent-based patient history access, appointment management, Twilio reminders, and Sentry monitoring, reducing hospital administrative workload 30%.
