Sahaj Bhadja

(213) 284-4651 bhadja@usc.edu sahaj-bhadja sahajbhadja sahaj-bhadja

Summary

Website developer with 2+ years building **Next.js/React** marketing and product pages on **Vercel**, translating design briefs into responsive, **SEO-friendly** experiences. Experienced in **headless CMS** workflows, landing-page optimization, **Google Analytics**, staging QA, and cross-functional delivery in fast-moving B2B SaaS environments.

Education

University of Southern California, Los Angeles, CA **August 2024 – May 2026**
Master of Science in Computer Science *GPA: 3.75/4.0*
Coursework: Web Technologies, Database Systems, Software Engineering, Analysis of Algorithms

Pandit Deendayal Energy University, Gandhinagar, India **November 2020 – May 2024**
Bachelor of Technology in Computer Science and Engineering *GPA: 3.88/4.0*
Coursework: Software Engineering, Object-Oriented Programming, Data Retrieval, Operating Systems

Experience

USC Dornsife **Los Angeles, CA**
Website Developer *September 2025 – Present*
- Built and maintained **TypeScript/React** web experiences for 500+ users, improving page responsiveness from **1.2s to 350ms** through performance tuning, accessible component patterns, and cross-browser QA before production releases.
- Partnered with stakeholders to ship iterative site updates with validation, error handling, and analytics-ready instrumentation across 5K+ monthly workflows while troubleshooting UX bugs and broken integration paths.

Grad8 **Los Angeles, CA**
Website Developer Intern *June 2025 – August 2025*
- Implemented **React** dashboard and content-facing pages deployed on **Vercel**, collaborating with product partners to translate requirements into responsive **HTML/CSS/JavaScript** interfaces handling **10K+ daily requests**.
- Reduced user turnaround by **60%** through rapid landing-page iterations, staging QA, code reviews, and conversion-focused UX fixes across instructor-facing marketing and product workflows in a startup SaaS environment.

USC AD Labs **Los Angeles, CA**
Web Development Assistant *January 2025 – May 2025*
- Delivered frontend modules and documentation across 100K+ record views with reproducible QA scenarios, clear cross-functional communication, and detail-oriented fixes for layout, data-display, and usability edge cases.
- Supported iterative web releases through structured reviews, smoke-test checklists, and pragmatic prioritization when balancing design feedback, engineering constraints, and delivery timelines in a research product team.

Aasma Technology Solutions **India**
Frontend Web Developer Intern - (VibrantChem) *May 2023 – August 2023*
- Developed **React/MERN** dashboard pages with responsive layouts, search/list components, and real-time updates for 2M+ records while improving lead conversions by **15%** using **Google Analytics**-informed UX refinements.
- Automated staging deployments with Docker/Jenkins, cutting release cycles by **50%** and enabling faster collaboration with design and business teams on customer-facing web modules and form-driven workflows.

LST Capitals **India**
Website Developer Intern *November 2022 – January 2023*
- Built **React/TypeScript** web dashboard pages from **Figma**-aligned briefs, improving cross-platform compatibility by **15%** through responsive **HTML/CSS** implementation, API integrations, and pre-publish QA across booking flows.
- Mapped 12+ integration touchpoints and presented end-to-end website architecture to clients, supporting conversion-oriented page updates, real-time status components, and organized rollout of iterative marketing-site enhancements.

Skills

Frontend: **Next.js**, **React**, **TypeScript**, JavaScript, **HTML**, **CSS**, TailwindCSS, responsive design, accessibility, cross-browser compatibility, component-driven UI, ES6+
Web Ops: **Vercel**, headless **CMS**, Storyblok (familiar), SEO, landing pages, A/B testing, conversion optimization, form integrations, staging QA, performance optimization, Core Web Vitals
Collaboration & Analytics: **Figma**-to-code handoff, marketing briefs, **Google Analytics**, Hotjar (familiar), demand-generation pages, Git, GitHub Actions, CI/CD, Agile, UX debugging, REST APIs, Node.js, MongoDB

Projects

PiXMod Live | *Next.js, Vercel, TypeScript, Stripe*
- Shipped a production **Next.js/Vercel** SaaS marketing site with subscription flows, responsive UI, and SEO-minded page structure, improving premium **conversion by 18%** through iterative landing-page and onboarding optimizations.

FinNexus Live | *Next.js, TypeScript, TailwindCSS, Vercel*
- Built a B2B-style fintech web product with **TailwindCSS** layouts, real-time dashboards, and performant client rendering for 50K+ users, emphasizing accessible components, fast load behavior, and conversion-friendly transaction workflows.

HMIS Live | *Next.js, TailwindCSS, Vercel, Responsive UI*
- Developed a responsive **Vercel**-hosted web application with TailwindCSS components, structured content blocks, and workflow-focused pages supporting 100+ daily operations with mobile-friendly layouts and maintainable frontend architecture.
