Sahaj Bhadja

(213) 284-4651 bhadja@usc.edu sahaj-bhadja sahajbhadja sahaj-bhadja

Summary

Applications Developer with 2+ years building business apps in **Java**, **SQL**, and full-stack systems; MSCS at USC with **testing, debugging**, and **CI/CD** across client-server environments.

Education

University of Southern California, Los Angeles, CA **August 2024 – May 2026**
Master of Science in Computer Science *GPA: 3.75/4*
Coursework: Database Systems, Analysis of Algorithms, Web Technologies, Software Engineering

Pandit Deendayal Energy University, Gandhinagar, India **November 2020 – May 2024**
Bachelor of Technology in Computer Science and Engineering *GPA: 3.88/4*
Coursework: Software Engineering, OOP, Operating Systems, Data Retrieval

Experience

USC Dornsife **Los Angeles, CA**
Software Engineer *September 2025 – Present*
Maintained business integrations on **PostgreSQL** and **SQL Server** for 500+ users with **testing** and **CI/CD** across 5K+ monthly jobs at 99%+ reliability. Analyzed performance issues and query fixes, reducing dashboard latency from 1.2s to 350ms through structured **debugging** and documented improvements.

Grad8 **Los Angeles, CA**
Software Engineer Intern *June 2025 – August 2025*
Developed application features with Python, React, and REST APIs for 150+ users, handling 10K+ daily requests with **unit testing** and deployment workflows. Identified issues, wrote documentation, and joined code reviews, cutting turnaround **60%** during peak usage.

Aasma Technology Solutions **India**
Software Developer Engineer - (SecureSync) *August 2023 – July 2024*
Built client-server microservices with **unit and integration testing** (Jenkins, PyTest, Mockito), boosting pipeline efficiency **68%** across Windows, Linux, and macOS. Analyzed API issues with OOP-based fixes, improving response times **30%** while collaborating with cross-functional teams in Agile sprints.

Aasma Technology Solutions **India**
Full Stack Developer Intern - (VibrantChem) *May 2023 – August 2023*
Built business modules (React, Node.js) with REST APIs and **Azure SQL** for billing records across 2M+ entries in eight microservices. Ran **testing** and **CI/CD** with Jenkins and Docker, cutting deployment time **50%** while following development standards and documentation practices.

LST Capitals **India**
Web Developer Intern *November 2022 – January 2023*
Built **Spring Boot** and Flask APIs for a business application serving 50K+ records with sub-200ms latency, translating requirements into production code. Debugged production defects via logging and validation, reducing manual handling **70%** while documenting system processes for stakeholders.

Skills

Languages: Java, Python, JavaScript, TypeScript, SQL, C++
Frameworks & APIs: Spring Boot, Flask, Node.js, REST APIs, Microservices
Databases: PostgreSQL, SQL Server, Azure SQL, MySQL, MongoDB
Engineering: Unit Testing, Integration Testing, Debugging, CI/CD, Jenkins, Git, Docker
Practices: Applications Development, Client-Server, Agile, Documentation, OOP, Azure, AWS

Projects

Chat2SQL Code | *Java, TypeScript, SQL, Maven*
Built a **Java** SQL workspace supporting 10+ database systems with schema exploration and query authoring using Maven and Docker.

FinNexus Live | *Next.js, TypeScript, MongoDB*
Built a **financial application** with secure account linking and real-time transactions for 50K+ users and 1M+ records.

HMIS Live | *MERN, TypeScript, REST APIs*
Built an enterprise **business application** with role-based workflows, REST integrations, and dashboards for 100+ daily transactions.
