Sahaj Bhadja

(213) 284-4651 bhadja@usc.edu sahaj-bhadja sahajbhadja sahaj-bhadja

Summary

Junior Web Developer pursuing an MSCS at USC with 2+ years building **HTML/CSS/JavaScript/TypeScript** web applications, **SQL** database integrations, and **Node.js** services on **Azure** with **Git**, testing, documentation, and deployment workflows.

Education

University of Southern California, Los Angeles, CA **August 2024 – May 2026**
Master of Science in Computer Science *GPA: 3.75/4*
Coursework: Web Technologies, Database Systems, Software Engineering, Analysis of Algorithms

Pandit Deendayal Energy University, Gandhinagar, India **November 2020 – May 2024**
Bachelor of Technology in Computer Science and Engineering *GPA: 3.88/4*
Coursework: Software Engineering, OOP, Operating Systems, Data Retrieval

Experience

USC Dornsife **Los Angeles, CA**
Software Engineer *September 2025 – Present*

- Developed and maintained **web application** integrations on **PostgreSQL** and **SQL Server** for 500+ users, supporting database-backed features with validation, testing, and **CI/CD** releases.
- Troubleshot performance defects, optimized **SQL** queries and schemas, and reduced dashboard latency from 1.2s to 350ms while maintaining technical documentation for production support.

Grad8 **Los Angeles, CA**
Software Engineer Intern *June 2025 – August 2025*

- Built **JavaScript/React** web features with **Python** server-side APIs and **MySQL**, handling 10K+ daily requests with unit testing, code reviews, and deployment workflows.
- Resolved application defects via debugging and logging, cutting turnaround **60%** while documenting enhancements and following development standards with senior developers.

Aasma Technology Solutions **India**
Software Developer Engineer - (SecureSync) *August 2023 – July 2024*

- Troubleshot and enhanced cross-platform web services with automated testing and **Git** workflows across Windows, Linux, and macOS, improving API response times **30%**.
- Participated in code reviews and Agile sprints, boosting pipeline efficiency **68%** while documenting fixes for enterprise integration and legacy application support.

Aasma Technology Solutions **India**
Full Stack Developer Intern - (VibrantChem) *May 2023 – August 2023*

- Developed **HTML/CSS/JavaScript** web modules with **Node.js** REST APIs and **Azure SQL** for billing workflows across 2M+ records in eight microservices on **Azure**.
- Supported deployment and **Git**-driven **CI/CD** with Jenkins and Docker, cutting release time **50%** while maintaining legacy integrations during modernization efforts.

LST Capitals **India**
Web Developer Intern *November 2022 – January 2023*

- Built responsive **React/TypeScript** web features with **Flask** APIs and **SQL**-backed persistence for 50K+ records, delivering sub-200ms responses across business workflows.
- Debugged production issues via logging and validation, reducing manual handling **70%** while documenting architecture and assisting with version-controlled release handoffs.

Skills

Web: HTML, CSS, JavaScript, TypeScript, React.js, Angular.js, jQuery, TailwindCSS, Responsive UI
Backend & APIs: Node.js, Express.js, Flask, REST APIs, Server-Side Scripting, Secure Coding
Databases: SQL, PostgreSQL, Oracle, MySQL, SQL Server, Azure SQL, Relational Schema Design
Tools & Cloud: Git, CI/CD, Jenkins, Microsoft Azure, Docker, Agile, Documentation, Troubleshooting

Projects

Chat2SQL Code | *JavaScript, TypeScript, Node.js, Oracle, PostgreSQL*

- Built a **web-based SQL workspace** supporting **Oracle** and **PostgreSQL** with schema exploration, query authoring, and database integration workflows using JavaScript and TypeScript.

HMIS Live | *MERN, TypeScript, REST APIs, TailwindCSS*

- Built an enterprise **web application** with role-based workflows, **REST API** integrations, authentication, and operational dashboards for 100+ daily user transactions.

PiXMod Live | *Next.js, Angular.js, MongoDB, Stripe*

- Built a responsive **JavaScript web application** with **Angular.js** and Next.js, integrating secure authentication and subscription workflows for production users.
