Sahaj Bhadja

(213) 284-4651 bhadja@usc.edu sahaj-bhadja sahajbhadja sahaj-bhadja

Summary

Software Engineer pursuing an MSCS at USC with 2+ years building data-driven applications and operational tools in Python, TypeScript, and Java, collaborating with business stakeholders to translate workflows into intuitive, production-ready solutions that drive measurable impact.

Education

University of Southern California, Los Angeles, CA **August 2024 – May 2026**
Master of Science in Computer Science *GPA: 3.75/4*
Coursework: Database Systems, Web Technologies, Analysis of Algorithms, Advanced NLP

Pandit Deendayal Energy University, Gandhinagar, India **November 2020 – May 2024**
Bachelor of Technology in Computer Science and Engineering *GPA: 3.88/4*
Coursework: Object-Oriented Programming, Software Engineering, Operating Systems, Data Retrieval

Experience

USC Dornsife **Los Angeles, CA**
Software Engineer *September 2025 – Present*
- Built **data-driven applications and dashboards** for 500+ users improving operational decision-making, optimizing performance to cut latency from 1.2s to 350ms.
- Enhanced **existing production workflows** with validation, reconciliation, and monitoring across 5K+ monthly jobs, maintaining 99%+ reliability for critical operations.

Grad8 **Los Angeles, CA**
Software Engineer Intern *June 2025 – August 2025*
- Developed **full-stack applications** (React, Python) from prototype through production for 150+ users, delivering intuitive tools adopted across 10K+ daily workflows.
- Built **REST APIs and responsive interfaces**, iterating on user feedback and reducing turnaround **60%** with documentation and user support.

Aasma Technology Solutions **India**
Software Developer Engineer - (SecureSync) *August 2023 – July 2024*
- Enhanced **existing applications and operational workflows** with API optimization and automation, reducing manual effort **35%** and improving response times **30%**.
- Collaborated with **external Microsoft/GitHub stakeholders** in Agile sprints, translating requirements into solutions and boosting pipeline efficiency **68%**.

Aasma Technology Solutions **India**
Full Stack Developer Intern - (VibrantChem) *May 2023 – August 2023*
- Built a **full-stack operations platform** (MERN) for resource allocation, billing, and lead management, syncing 2M+ records and reducing resource wastage **42%**.
- Delivered **analytics dashboards and REST APIs** with real-time updates, using Google Analytics insights to increase lead conversions **15%** for business teams.

LST Capitals **India**
Web Developer Intern *November 2022 – January 2023*
- Built **full-stack web and mobile applications** (React, TypeScript, Flask) for 50K+ records, collaborating with clients to translate business needs into technical solutions.
- Presented **end-to-end system architecture** to stakeholders and documented workflows, supporting rollout and adoption across cross-functional teams.

Skills

Languages: Python, JavaScript/TypeScript, Java, SQL, C++, Bash
Frontend & Web: React.js, Next.js, TailwindCSS, Responsive Design, HTML/CSS, Interactive Dashboards
Backend & APIs: FastAPI, Flask, Node.js, Spring Boot, RESTful APIs, Microservices
Data & Analytics: Data-Driven Tools, ETL Pipelines, Analytics, SQL, Data Visualization, Operations Tooling
Databases & Cloud: PostgreSQL, MySQL, MongoDB, Azure SQL, AWS, Azure, Docker
Practices: Stakeholder Collaboration, Requirements Translation, Prototyping, Agile, Documentation, User Training

Projects

FinNexus Live | *Next.js, TypeScript, MongoDB, WebSockets*
- Built a **data-driven fintech platform** (Next.js, TypeScript) for 50K+ users and 1M+ transactions with real-time analytics, filtering, and responsive interfaces.

HMIS Live | *MERN, TypeScript, Operations Workflows*

- Built a **full-stack operations platform** (MERN, TypeScript) automating appointment workflows and dashboards, reducing administrative workload **30%**.

Big-Brain Live | *React, GCP, FAISS, REST APIs*

- Built a **data-driven web tool** with semantic search and real-time collaboration over 50K+ records, improving information access for end users.
