Sahaj Bhadja

(213) 284-4651 bhadja@usc.edu sahaj-bhadja sahajbhadja sahaj-bhadja

Summary

Associate IT engineer pursuing an MSCS at USC with 2+ years building, testing, and maintaining business applications on **Microsoft Azure** and **SQL**. Experienced in **C#**/.NET development, automated unit testing, production support, and clear communication with business partners.

Education

University of Southern California, Los Angeles, CA **August 2024 – May 2026**
Master of Science in Computer Science *GPA: 3.75/4.0*
Coursework: Software Engineering, Database Systems, Computer Networks

Pandit Deendayal Energy University, Gandhinagar, India **November 2020 – May 2024**
Bachelor of Technology in Computer Science and Engineering *GPA: 3.88/4.0*
Coursework: Software Engineering, OOP, Data Structures

Experience

USC Dornsife **Los Angeles, CA**
Associate IT Engineer *September 2025 – Present*

- Maintain production applications on **Microsoft Azure SQL** for **500+ users**, monitoring issues and implementing improvements that achieved **99%+ reliability** across **5K+ monthly integration jobs**.
- Execute automated validation and unit-style test workflows, communicating technical status to business and engineering partners while analyzing areas for modification and quality improvement.

Grad8 **Los Angeles, CA**
Associate IT Engineer Intern *June 2025 – August 2025*

- Built and maintained instructor-facing business applications with **SQL**-backed reporting for **10K+ daily requests**, troubleshooting software issues and aligning development work with business requirements.
- Implemented workflow improvements reducing manual turnaround by **60%**, documenting solutions and partnering with stakeholders while working independently and as part of a team.

Aasma Technology Solutions **India**
Associate IT Engineer - (SecureSync) *August 2023 – July 2024*

- Contributed to application development and maintenance with **20+ automated unit and integration test suites**, identifying defects and validating fixes in Jenkins CI/CD pipelines for business data-sharing platforms.
- Analyzed performance bottlenecks and suggested improvements that increased pipeline efficiency by **68%**, collaborating with senior engineers and business partners on straightforward technical solutions.

Aasma Technology Solutions **India**
Associate IT Engineer Intern - (VibrantChem) *May 2023 – August 2023*

- Supported CRM modules on **Azure SQL** and **Azure App Services**, optimizing queries and maintaining applications syncing **2M+ records** across billing and operations workflows.

Enterprise Applications Lab **India**
Software Developer Intern *November 2022 – January 2023*

- Developed business modules in **C#** and **.NET** with **SQL Server** schemas and REST integrations, delivering maintainable internal workflow and reporting solutions with organized documentation.

Skills

Microsoft: C#, .NET, Microsoft Azure, Azure SQL, SQL Server, SQL, query optimization, Azure App Services, application maintenance, production support, troubleshooting, REST APIs, OOP, MVC (familiar)
Engineering: automated unit testing, integration testing, PyTest, CI/CD, Jenkins, Git, Python, Java, Docker, PostgreSQL, MySQL, problem solving, business requirements, documentation, Agile, communication, initiative, attention to detail

Projects

Chat2SQL Code | *SQL Server, Database Maintenance, Query Optimization*

- Built database tooling with **SQL Server** support, schema validation, and query optimization for enterprise SQL application maintenance workflows.

HMIS Live | *Business Applications, REST APIs, Operations Software*

- Delivered an operations platform with appointment workflows and API integrations, reducing administrative workload by **30%** through maintainable business application design.

RetailOps Portal Code | *C#, .NET, SQL Server, Azure*

- Created an internal portal with **C#/.NET** services, **SQL Server** reporting, and **Azure**-ready deployment with automated tests for business workflow support.
