Sahaj Bhadja

(213) 284-4651 bhadja@usc.edu sahaj-bhadja sahajbhadja sahaj-bhadja

Summary

MSCS candidate with 2+ years in high-growth technology environments driving operational excellence through **SQL** analytics, **ETL** automation, and cross-functional delivery. Experienced scoping requirements and building data-driven insights for **AI**-enabled enterprise workflows.

Education

University of Southern California, Los Angeles, CA **August 2024 – May 2026**
Master of Science in Computer Science *GPA: 3.75/4.0*
Coursework: Database Systems, Advanced NLP

Pandit Deendayal Energy University, Gandhinagar, India **November 2020 – May 2024**
Bachelor of Technology in Computer Science and Engineering *GPA: 3.88/4.0*
Coursework: Data Structures, OOP, Operating Systems

Experience

USC Dornsife **Los Angeles, CA**
Software Engineer *September 2025 – Present*

- Built **ETL** processes from 0-1 with **SQL/PostgreSQL** and AI automation, supporting **5K+ monthly jobs** at **99%+ reliability** for **500+ users** across cross-functional teams.
- Led performance analysis and quality optimization, reducing latency from **1.2s** to **350ms** while partnering with product and engineering on handoffs and documentation.

Grad8 **Los Angeles, CA**
Software Engineer Intern *June 2025 – August 2025*

- Partnered with **150+ instructor** stakeholders on onboarding workflows processing **10K+ daily requests**, improving activation turnaround by **60%** through automation and clear communication.
- Collaborated on multi-stakeholder releases, building tracking tooling and process improvements with ownership in a fast-paced startup environment.

Aasma Technology Solutions **India**
Software Developer Engineer - (SecureSync) *August 2023 – July 2024*

- Bridged Microsoft/GitHub stakeholders, optimizing **ETL** workflows that improved pipeline efficiency by **68%** and consolidated logs into analytics-ready formats.
- Built operational automation with **20+ test suites** and nightly workflows, improving API response times by **30%** across cross-functional initiatives.

Aasma Technology Solutions **India**
Full Stack Developer Intern - (VibrantChem) *May 2023 – August 2023*

- Built operations workflows across **2M+ records**, using **SQL** analytics and **Google Analytics** to reduce resource wastage by **42%** and increase lead conversions by **15%**.
- Partnered on project delivery and quality optimization, cutting deployment cycles by **50%** while supporting daily reviews and peer coaching on operational standards.

LST Capitals **India**
Web Developer Intern *November 2022 – January 2023*

- Presented workflow designs to clients, aligning requirements across **12+ integration points** and delivering documentation for operations across **50K+ records**.
- Supported analytics and troubleshooting with **SQL**-tuned services, improving delivery by **15%** while communicating solutions under shifting priorities.

Skills

Operations: SQL, PostgreSQL, MySQL, data analysis, ETL, process optimization, performance analysis, quality optimization, project management, requirement scoping, automation, AI workflows
Collaboration: stakeholder management, client-facing delivery, cross-functional collaboration, communication, ownership, Google Suite, Excel (familiar), BI (familiar), Python, Agile

Projects

HMIS Live | *Operations, SQL, Automation*

- Designed operational workflows with automated processes, reducing administrative workload by **30%** across **100+ daily** operations.

FinNexus Live | *Analytics, Insights, Automation*

- Built analytics across **1M+ transactions**, supporting reporting and operational visibility with automation and stakeholder-ready interfaces.

Linguistix | *AI Data, ETL, Automation*

- Developed an AI-ready ingestion pipeline with automated validation, supporting structured enterprise data workflows and engineering-to-delivery handoffs.
