Sahaj Bhadja

(213) 284-4651 sahajbhadja10@gmail.com sahaj-bhadja sahajbhadja sahaj-bhadja

Summary

Software Engineer with 2+ years building **Python** and **React** web applications, REST APIs, and PostgreSQL-backed services on Linux, with MVC frameworks (**Django**, Flask), Next.js, automated **unit and end-to-end testing**, and reliable CI/CD releases.

Education

University of Southern California, Los Angeles, CA **August 2024 – May 2026**
Master of Science in Computer Science *GPA: 3.75/4*
Coursework: Web Technologies, Database Systems, Analysis of Algorithms, Advanced NLP

Pandit Deendayal Energy University, Gandhinagar, India **November 2020 – May 2024**
Bachelor of Technology in Computer Science and Engineering *GPA: 3.88/4*
Coursework: Software Engineering, Object-Oriented Programming, Operating Systems, Data Retrieval

Experience

USC Dornsife **September 2025 – Present**
Software Engineer *Los Angeles, CA*

- Built **Python** FastAPI services and integration pipelines over PostgreSQL and SQL Server with automated validation, reconciliation, and CI/CD-backed releases, sustaining 99%+ reliability across 5K+ monthly production jobs.
- Designed normalized **PostgreSQL** schemas supporting 200+ users and 10K+ structured records, applying indexing, data validation, and SQL query tuning that reduced query latency 35% across integration workflows.

Grad8 **June 2025 – August 2025**
Software Engineer Intern *Los Angeles, CA*

- Built a **React** web dashboard and modular Flask backend organized as **MVC** Blueprints for auth, uploads, and grading, serving 150+ instructors and 10K+ daily requests on AWS.
- Kept APIs stable under peak load with multithreaded batch processing, secure PDF, DOCX, and ZIP ingestion, and GitHub Actions **CI/CD** deployments to Render and Vercel, cutting feedback turnaround 60%.

Aasma Technology Solutions **August 2023 – July 2024**
Software Developer Engineer – SecureSync *India*

- Automated 20+ **Python unit** and integration test suites with PyTest and Mockito in nightly Jenkins pipelines that built, installed, and validated releases across Windows, **Linux**, and macOS.
- Optimized API responses for low-bandwidth users with pagination, field filtering, indexing, and caching, improving response times 30%, and collaborated in sprint planning and **Agile** release cycles with Microsoft and GitHub stakeholders.

Aasma Technology Solutions **May 2023 – August 2023**
Full Stack Developer Intern – VibrantChem *India*

- Built a **Django and React** resource-management web application with RESTful APIs and real-time WebSocket updates over Azure SQL, syncing 2M+ records across locations with 33% fewer sync conflicts.
- Ran **full-stack web testing** with Jest, PyTest, and Selenium end-to-end suites in Jenkins CI/CD before Docker staging releases, reaching 95%+ successful build validation and cutting deployment time 50%.

LST Capitals **November 2022 – January 2023**
Web Developer Intern *India*

- Built a **React and TypeScript** web dashboard and Flask APIs for bookings, pricing, and coupons, keeping core responses under 200ms across 50K+ records with Firebase real-time status updates.
- Integrated multi-currency card, wallet, and PayPal payments with **idempotent webhooks** for refunds and disputes, cutting manual payment handling 70% and presenting the end-to-end architecture to the client.

Skills

Languages: Python, JavaScript, TypeScript, SQL, HTML5, CSS3, Java, Bash
Web Frameworks: Django, Flask, FastAPI, React, Next.js, TailwindCSS, REST APIs, WebSockets, MVC
Databases: PostgreSQL, MySQL, SQL Server, Azure SQL, MongoDB, Query Optimization
Testing & Quality: PyTest, Jest, Selenium, Mockito, Unit Testing, End-to-End Testing, Code Reviews
Infrastructure & Practices: Linux, NGINX, Docker, AWS, Azure, Git, GitHub Actions, Jenkins, CI/CD, Agile

Projects

Real-Time Market Data Web App | *Python, Django, Next.js, React, Tailwind CSS, PostgreSQL*

- Designed a **Django** REST and WebSocket backend streaming quote and trade updates to a server-rendered **Next.js** and Tailwind frontend, with PostgreSQL history tables, response caching, PyTest unit tests, and Selenium end-to-end tests.

Accessible React Component Library | *React, Next.js, TypeScript, Tailwind CSS, Jest, Storybook*

- Designed a themeable **React and TypeScript** component library of data tables, charts, and form controls using Tailwind design tokens, with Jest unit tests and automated **accessibility** checks documented in Storybook.

FinNexus Live | *Next.js, TypeScript, TailwindCSS, MongoDB, Kubernetes, WebSockets*

- Built a **Next.js**, TypeScript, and TailwindCSS fintech platform with Plaid bank linking, real-time WebSocket updates, and advanced transaction filtering, supporting 50,000+ users and 1M+ transactions with CI/CD on Kubernetes.
