Sahaj Bhadja

(213) 284-4651 sahajbhadja10@gmail.com sahaj-bhadja sahajbhadja sahaj-bhadja

Summary

Software Developer with 2+ years building maintainable applications using **C#/.NET**, **ASP.NET Core MVC**, SQL Server, React, and JavaScript, supported by OOP design patterns, automated testing, CI/CD, documentation, and production troubleshooting.

Education

University of Southern California, Los Angeles, CA **August 2024 – May 2026**
Master of Science in Computer Science *GPA: 3.75/4*
Coursework: Software Engineering, Database Systems, Web Technologies, Analysis of Algorithms

Pandit Deendayal Energy University, Gandhinagar, India **November 2020 – May 2024**
Bachelor of Technology in Computer Science and Engineering *GPA: 3.88/4*
Coursework: Object-Oriented Programming, Operating Systems, Data Structures, Computer Networks

Experience

USC Dornsife **September 2025 – Present**
Software Engineer *Los Angeles, CA*

- Designed normalized **SQL Server and Azure SQL** schemas with row-level security and indexed queries for 500+ users, reducing dashboard latency from 1.2 seconds to 350 milliseconds through query optimization.
- Built recurring integrations with validation, reconciliation, error handling, and CI/CD-backed production releases, sustaining 99%+ **application reliability** across 5K+ monthly jobs while troubleshooting failures and documenting operational workflows.

Grad8 **June 2025 – August 2025**
Software Engineer Intern *Los Angeles, CA*

- Developed React interfaces and backend services for uploads, grading history, feedback, and model selection, supporting 150+ instructors and 10K+ daily requests while delivering **scalable web application** functionality.
- Implemented concurrent file processing with secure ingestion, error handling, and provider fallbacks, validating releases through **integration testing** and CI/CD deployments while reducing feedback turnaround 60% during peak workloads.

Aasma Technology Solutions **August 2023 – July 2024**
Software Developer Engineer – SecureSync *India*

- Designed integration modules using **object-oriented design patterns**, including Singleton and Factory, improving API response times 30%, reducing technical debt 20%, and strengthening maintainability across a cross-platform microservice application.
- Automated 20+ **unit and integration tests** with PyTest, Mockito, and Jenkins across Windows, Linux, and macOS, supporting Agile sprint delivery and release validation with Microsoft and GitHub stakeholders.

Aasma Technology Solutions **May 2023 – August 2023**
Full Stack Developer Intern – VibrantChem *India*

- Built eight **C# ASP.NET Core MVC** modules with Entity Framework and Azure SQL for authentication, resources, billing, leads, permissions, and notifications, synchronizing 2M+ records across distributed locations.
- Developed responsive React, HTML, CSS, and Bootstrap interfaces with real-time updates; Jenkins CI/CD, Docker staging, and automated tests achieved 95%+ **build validation** and reduced deployment time 50%.

LST Capitals **November 2022 – January 2023**
Web Developer Intern *India*

- Developed **C# .NET Web APIs** for bookings, pricing, coupons, payments, and real-time status updates, reliably maintaining sub-200ms responses while supporting Firebase synchronization across 50K+ cross-platform service records.
- Translated client requirements into an end-to-end architecture with 12+ integration points, documented deployment workflows, and presented technical solutions before implementation, reducing **design errors** 25% during stakeholder reviews.

Skills

Languages: C#, JavaScript, TypeScript, SQL, T-SQL, Python, Java, HTML5, CSS3
.NET & Web: .NET 8, ASP.NET Core, ASP.NET MVC, Web API, Entity Framework, React, Bootstrap, jQuery, Angular
Databases: SQL Server, Azure SQL, Oracle, PostgreSQL, MySQL, Stored Procedures, Schema Design, Query Optimization
Architecture: OOP, SOLID, Design Patterns, REST APIs, Microservices, Client-Server Applications, Third-Party Integrations
Quality & SDLC: Unit Testing, Integration Testing, System Testing, Debugging, Production Support, Documentation, Agile/Scrum, Code Review
Tools & Delivery: Git, Jenkins, GitHub Actions, CI/CD, Docker, Microsoft Azure, AWS, Deployment Automation

Projects

CivicCase | *C#, ASP.NET Core MVC, SQL Server, Stored Procedures, Bootstrap, xUnit*

- Designed a **regulatory case-management portal** with configurable applications, review queues, audit history, role-based access, and SQL Server stored procedures, supporting documented approval workflows and testable public-service operations.

Chat2SQL Code | *Java, TypeScript, SQL Server, Oracle, PostgreSQL, Docker*

- Extended a database workspace supporting 10+ systems, including **SQL Server and Oracle**, with schema synchronization, validated query execution, and Docker-based environments while achieving 82% accuracy on generated queries.

HMIS – Hospital Management Information System Live | *MERN, TypeScript, ABDM APIs, Sentry*

- Built appointment and patient-record **workflow applications** with secure consent-based integrations, responsive interfaces, Twilio notifications, and Sentry monitoring, reducing administrative workload 30% while reliably supporting 100+ daily appointments.
