Sahaj Bhadja

(213) 284-4651 | bhadja@usc.edu | sahaj-bhadja | sahajbhadja | sahaj-bhadja

Summary

Full stack engineer with 2+ years building applications using **Python (FastAPI)** backend and **TypeScript/JavaScript** frontend. Experienced with **PostgreSQL**, **REST APIs**, AWS, and Docker. Strong interest in **private equity/financial domain** with growth mindset and passion for continuous learning.

Education

University of Southern California, Los Angeles, CA — **August 2024 – May 2026**
Master of Science in Computer Science — *GPA: 3.75/4.0*
Coursework: Database Systems, Software Engineering, Analysis of Algorithms, Distributed Systems

Pandit Deendayal Energy University, Gandhinagar, India — **November 2020 – May 2024**
Bachelor of Technology in Computer Science and Engineering — *GPA: 3.88/4.0*
Coursework: Data Structures, Database Management, Software Engineering, Web Development

Experience

USC Dornsife — **Los Angeles, CA**
Software Engineer — *September 2025 – Present*

- Designed and developed full stack features using **Python (FastAPI)** backend and **TypeScript** frontend, writing efficient **PostgreSQL queries** and documenting APIs and processes.
- Debugged and troubleshot **distributed systems** and data processing pipelines, effectively communicating technical concepts to both technical and non-technical audiences.

Grad8 — **Los Angeles, CA**
Software Engineer Intern — *June 2025 – August 2025*

- Built **REST APIs** using **Python/FastAPI** with **PostgreSQL**, deploying to **AWS** using **Docker** containerization and participating in **Agile** team meetings.
- Demonstrated **growth mindset** by staying on cutting edge of technology, introducing innovative solutions while adapting to changing requirements in fast-paced environment.

USC AD Labs — **Los Angeles, CA**
ML Research Assistant — *January 2025 – May 2025*

- Developed data processing pipelines using **Python** and **PostgreSQL**, writing efficient queries with understanding of normalization and improving system performance by 18%.
- Documented coding processes and workflows to ensure ease of maintenance, demonstrating ability to work independently while sharing progress with cross-functional team.

Aasma Technology Solutions — **India**
Software Developer Engineer - (SecureSync) — *August 2023 – July 2024*

- Developed full stack features with **Python/FastAPI** backend and **TypeScript (ES6+)** frontend, integrating **third-party APIs** and handling data aggregation for financial workflows.
- Used **Git** for version control and **CI/CD pipelines** for deployment, debugging complex programming errors using debugging tools and logs in Agile environment.

Aasma Technology Solutions — **India**
Full Stack Developer Intern - (VibrantChem) — *May 2023 – August 2023*

- Built features using **TypeScript/JavaScript** and **Python**, working within Agile environment while asking clarifying questions and sharing progress with the team.
- Demonstrated passion for continuous learning and self-improvement, identifying and resolving complex problems while adapting to changing priorities.

Skills

Backend: Python (FastAPI), Node.js, REST APIs, third-party API integration
Frontend: TypeScript, JavaScript (ES6+), Svelte basics, React
Databases: PostgreSQL (query optimization, normalization), MySQL, MongoDB
Tools & DevOps: Git, Docker, AWS, CI/CD pipelines, debugging tools, Agile

Projects

FinNexus Live | *Python (FastAPI), TypeScript, PostgreSQL, AWS*

- Built **financial platform** with FastAPI backend and TypeScript frontend, integrating third-party APIs for data aggregation and serving 50K+ users in **private equity domain**.

Big-Brain Live | *Python, TypeScript, PostgreSQL, Docker*

- Developed full stack application with **Python backend and TypeScript frontend**, documenting APIs and processes while containerizing with Docker for consistent deployment.

Chat2SQL Code | *Python, PostgreSQL, REST APIs, Git*

- Created data tool converting natural language to optimized **PostgreSQL queries**, demonstrating strong SQL skills and understanding of normalization principles.
