Sahaj Bhadja

(213) 284-4651 bhadja@usc.edu sahaj-bhadja sahajbhadja sahaj-bhadja

Summary

Software engineer with 2+ years building scalable **SaaS applications** using **TypeScript** and modern frameworks. Experienced with **MySQL/PostgreSQL**, **RESTful APIs**, and **Docker**. AI-forward developer who leverages LLMs and coding assistants to accelerate development. Strong growth mindset with passion for learning new technologies.

Education

University of Southern California, Los Angeles, CA **August 2024 – May 2026**
Master of Science in Computer Science *GPA: 3.75/4.0*
Coursework: Database Systems, Web Technologies, Analysis of Algorithms, Software Engineering

Pandit Deendayal Energy University, Gandhinagar, India **November 2020 – May 2024**
Bachelor of Technology in Computer Science and Engineering *GPA: 3.88/4.0*
Coursework: Data Structures, Software Engineering, Database Management, Web Development

Experience

USC Dornsife **Los Angeles, CA**
Software Engineer *September 2025 – Present*

- Built **TypeScript microservices** and RESTful APIs processing 5K+ monthly requests, leveraging **AI coding assistants** to accelerate development velocity and improve code quality.
- Collaborated closely with senior engineers through code reviews, demonstrating growth mindset by consistently asking "why" behind architectural decisions and applying feedback to improve.

Grad8 **Los Angeles, CA**
Software Engineer Intern *June 2025 – August 2025*

- Developed **TypeScript/Node.js** backend services with **PostgreSQL**, progressing from bug fixes to shipping meaningful API features while writing clean, documented code.
- Containerized applications using **Docker**, demonstrating curiosity and desire to learn new technologies quickly while maintaining excellent team communication.

USC AD Labs **Los Angeles, CA**
ML Research Assistant *January 2025 – May 2025*

- Built data processing pipelines using Python and **SQL query optimization**, breaking down complex problems into manageable tasks and improving system performance by 18%.
- Proactively adopted **LLM tools** for code generation and testing, demonstrating AI-forward approach to accelerate development and automate repetitive tasks.

Aasma Technology Solutions **India**
Software Developer Engineer - (SecureSync) *August 2023 – July 2024*

- Developed **SaaS application** features using TypeScript and **MySQL**, building RESTful APIs and implementing real-time data synchronization across distributed systems.
- Applied **SOLID principles** and wrote robust unit tests, participating in code reviews to both learn best practices and provide fresh perspectives on system design.

Aasma Technology Solutions **India**
Full Stack Developer Intern - (VibrantChem) *May 2023 – August 2023*

- Built full-stack features using **TypeScript, Node.js, and PostgreSQL**, demonstrating strong analytical skills and ability to complete tasks with increasing independence.
- Contributed to Laravel/PHP backend modules, gaining exposure to monolith architecture while maintaining documentation reflecting industry standards.

Skills

Languages: TypeScript, JavaScript, PHP (Laravel basics), Python, SQL
Databases: MySQL, PostgreSQL, MongoDB, query optimization
Tools & Practices: Docker, Git, RESTful APIs, unit testing, SOLID principles, CI/CD
AI Tooling: GitHub Copilot, Claude, LLM-assisted development, prompt engineering

Projects

FleetTrack Code | *TypeScript, Node.js, PostgreSQL, Docker, Geospatial*

- Built a **real-time GPS tracking dashboard** processing location data streams, implementing geospatial queries in PostgreSQL and RESTful APIs for logistics visibility.

Big-Brain Live | *TypeScript, Python, PostgreSQL, LLM Integration*

- Developed an **AI-powered document intelligence platform** leveraging LLMs for content analysis, demonstrating AI-forward development and modern workflow adoption.

FinNexus Live | *TypeScript, Node.js, MongoDB, Docker*

- Created a **scalable SaaS financial platform** with RESTful APIs serving 50K+ users, containerized with Docker and following SOLID principles throughout.
