Sahaj Bhadja

(213) 284-4651 bhadja@usc.edu sahaj-bhadja sahajbhadja sahaj-bhadja

Summary

Detail-oriented software developer with 2+ years building **web applications** using **C#/.NET**, **Angular**, **HTML/CSS**, and **SQL**. Experienced in testing, debugging, collaborative delivery, and **AI-assisted** features with strong OOP fundamentals and eagerness to grow in impactful product work.

Education

University of Southern California, Los Angeles, CA **August 2024 – May 2026**
Master of Science in Computer Science *GPA: 3.75/4.0*
Coursework: Software Engineering, Database Systems, Web Technologies, Object-Oriented Programming

Pandit Deendayal Energy University, Gandhinagar, India **November 2020 – May 2024**
Bachelor of Technology in Computer Science and Engineering *GPA: 3.88/4.0*
Coursework: Object-Oriented Programming, Software Engineering, Data Structures, Database Systems

Experience

USC Dornsife **Los Angeles, CA**
Software Developer *September 2025 – Present*

- Developed and maintained web platform features for 500+ users using clean **OOP** design, **SQL/PostgreSQL** data access, and **AI workflow** integrations while troubleshooting bugs to improve reliability to **99%+**.
- Tested and validated application changes across 5K+ monthly jobs, collaborating with teammates on code quality, performance standards, and iterative UX improvements.

Grad8 **Los Angeles, CA**
Software Developer Intern *June 2025 – August 2025*

- Built and debugged full-stack web features with **HTML/CSS** interfaces and REST APIs, handling **10K+ daily requests** through careful testing and fast-paced team collaboration.
- Identified and resolved production defects, reducing user turnaround by **60%** while learning maintainable coding practices through reviews and pair-style feedback.

USC AD Labs **Los Angeles, CA**
Software Engineering Assistant *January 2025 – May 2025*

- Contributed to web application modules across 100K+ records with reproducible test cases, documentation, and attention to detail in requirements-driven delivery.
- Supported continuous functionality improvements through structured debugging, stakeholder communication, and collaborative design discussions.

Aasma Technology Solutions **India**
Software Developer - (SecureSync) *August 2023 – July 2024*

- Implemented backend services and **SQL-backed APIs** with object-oriented patterns, improving response time by **30%** through maintainable code and database query optimization.
- Maintained **20+ automated test suites** in CI/CD pipelines, increasing release confidence by **68%** through validation, bug triage, and team code reviews.

EnterpriseApps Systems **India**
.NET Developer Intern *January 2023 – April 2023*

- Developed **C#/.NET** services and **Angular** UI components with **HTML/CSS**, connecting REST endpoints to **SQL Server** databases for enterprise reporting workflows.
- Wrote unit tests, fixed UI and API defects, and participated in Agile delivery practices to ship reliable, user-facing web application features.

Skills

Development: **C#**, **.NET**, **Angular**, HTML/CSS, JavaScript/TypeScript, OOP, REST APIs
Data & Quality: **SQL**, SQL Server, PostgreSQL, schema basics, unit testing, debugging, Git
Emerging: **Artificial Intelligence** feature integration, collaborative Agile delivery, detail-oriented problem solving

Projects

CivicLedger Portal | *C#, .NET, Angular, SQL*

- Built a public-finance style web application with **Angular/HTML/CSS** front ends and **.NET APIs**, supporting accurate reporting workflows with relational **SQL** data models.

FundView Demo App | *Angular, .NET, HTML/CSS, AI*

- Prototyped government-style dashboard modules with validation rules, responsive UI components, and **AI-assisted** data review features for clearer operational decision support.

Chat2SQL Code | *Java, SQL, Docker, Web UI*

- Developed a cross-platform database workspace with clean service layers, multi-database **SQL** integrations, and tested client-server workflows across 10+ systems.
