Sahaj Bhadja

(213) 284-4651 bhadja@usc.edu sahaj-bhadja sahajbhadja sahaj-bhadja

Summary

Cloud engineer with 2+ years across **Azure**, **AWS**, and **GCP**, supporting **IAM governance**, cloud hardening, **NIST/CMMC**-aligned documentation, SIEM monitoring concepts, and hybrid infrastructure operations.

Education

University of Southern California, Los Angeles, CA **August 2024 – May 2026**
Master of Science in Computer Science *GPA: 3.75/4.0*
Coursework: Computer Networks, Database Systems, Software Engineering, Information Management

Pandit Deendayal Energy University, Gandhinagar, India **November 2020 – May 2024**
Bachelor of Technology in Computer Science and Engineering *GPA: 3.88/4.0*
Coursework: Operating Systems, Software Engineering, Systems Administration, Data Analysis

Experience

USC Dornsife **Los Angeles, CA**
Cloud Engineer *September 2025 – Present*

- Configured secure **Azure SQL and Blob Storage** with row-level access controls and documented hardening standards for 500+ users across multi-tenant workloads.
- Supported hybrid **cloud migration and integration** pipelines (5K+ monthly jobs) with configuration documentation, validation checks, and incident triage.

Grad8 **Los Angeles, CA**
Cloud Operations Intern *June 2025 – August 2025*

- Supported **AWS RDS and CI/CD** production services for 150+ users, troubleshooting IAM and deployment issues with secure release coordination.
- Documented cloud runbooks and environment configurations, improving operational consistency and faster resolution of infrastructure escalations.

USC AD Labs **Los Angeles, CA**
Technical Operations Assistant *January 2025 – May 2025*

- Authored **SOPs and security documentation** for research platforms, improving audit readiness and consistent access governance across teams.
- Contributed to **threat modeling and monitoring reviews** for internal collaboration workflows and configuration hardening initiatives.

Aasma Technology Solutions **India**
Cloud Security Engineer - (SecureSync) *August 2023 – July 2024*

- Maintained **AWS integrations** (Glue, S3, APIs) with access-control reviews and Jenkins automation, improving CI reliability by 68% across production releases.
- Hardened **IAM-aligned deployment pipelines** on Windows/Linux, reducing integration failures and supporting compliant data movement workflows.

SecureOps Systems **India**
Cloud Security Intern *January 2023 – April 2023*

- Assisted with **Azure NSG, firewall, and IAM** tasks mapped to **NIST/CIS** baselines for hybrid cloud resources under senior engineer guidance.
- Monitored security events and documented incidents, supporting access reviews and endpoint compliance tracking in dev/staging environments.

Skills

Cloud: **Azure**, **GCP**, **AWS** (NSG, Firewall, S3, Glue, RDS)
Security: IAM/Entra ID, zero-trust, WAF/NGFW, Intune/Defender, Sentinel/Splunk concepts
Compliance: NIST SP 800, CMMC, ISO 27001, ITAR/DFARS/GDPR awareness, SOP documentation
Tools: Power BI, SharePoint, Python, Bash, Terraform basics, Jenkins, Git

Projects

CloudHarden Lab | *Azure, IAM, NSG/WAF Configuration*

- Lab for Azure NSG rules, identity-based access policies, and NIST-aligned hardening templates for secure resource deployment.

SentinelWatch Dashboard | *Python, SIEM Log Analysis, Monitoring*

- Dashboard prototype for security event ingestion, alert triage, and incident response documentation across cloud workloads.

ComplianceGuard Toolkit | *Python, Data Classification, GDPR/DFARS Concepts*

- Scripts for data classification, retention metadata, and multi-framework compliance readiness reporting (GDPR/DFARS concepts).
