Sahaj Bhadja

(213) 284-4651 bhadja@usc.edu sahaj-bhadja sahajbhadja sahaj-bhadja

Summary

Cloud engineer with experience deploying and managing **Google Cloud Platform (GCP)** infrastructure. Proficient in **Terraform**, **Docker**, **Kubernetes (GKE)**, and **CI/CD pipelines**. Strong scripting skills in **Python and Bash** with solid understanding of **Linux systems** and networking fundamentals.

Education

University of Southern California, Los Angeles, CA **August 2024 – May 2026**
Master of Science in Computer Science *GPA: 3.75/4.0*
Coursework: Cloud Computing, Computer Networks, Operating Systems, Distributed Systems

Pandit Deendayal Energy University, Gandhinagar, India **November 2020 – May 2024**
Bachelor of Technology in Computer Science and Engineering *GPA: 3.88/4.0*
Coursework: Computer Networks, Operating Systems, Database Management, Linux Administration

Experience

USC Dornsife **Los Angeles, CA**
Software Engineer *September 2025 – Present*

- Provisioned and configured **GCP resources** including **Compute Engine, Cloud Storage, and Cloud Run**, supporting deployment and optimization of applications within GCP environments.
- Monitored cloud systems using **Cloud Monitoring, Logging, and Alerting** tools to ensure performance and reliability, troubleshooting infrastructure and networking issues.

Grad8 **Los Angeles, CA**
Software Engineer Intern *June 2025 – August 2025*

- Assisted with **Infrastructure as Code (IaC)** solutions using **Terraform**, supporting and maintaining **CI/CD pipelines** using **GitHub Actions** and Jenkins.
- Deployed applications on **GKE (Kubernetes)** with **Docker** containers, collaborating with DevOps teams on automation initiatives and operational improvements.

USC AD Labs **Los Angeles, CA**
ML Research Assistant *January 2025 – May 2025*

- Managed cloud infrastructure on **GCP**, configuring **VPCs, DNS, and firewall** rules following networking fundamentals and security best practices.
- Wrote **Python and Bash scripts** for automation tasks on **Linux systems**, maintaining documentation of cloud architecture and operational processes.

Aasma Technology Solutions **India**
Software Developer Engineer - (SecureSync) *August 2023 – July 2024*

- Deployed and maintained applications on **GCP** using **Cloud Run** and serverless architectures, managing **IAM roles, service accounts, and access controls**.
- Implemented **CI/CD pipelines** using **GitLab CI** and Jenkins, securing cloud infrastructure following **security best practices** and compliance standards.

Aasma Technology Solutions **India**
Full Stack Developer Intern - (VibrantChem) *May 2023 – August 2023*

- Assisted in provisioning cloud resources and deploying containerized applications with **Docker**, using **Git** and version control practices.
- Partnered with cross-functional teams to support cloud operations, maintaining accurate documentation and contributing to continuous improvement initiatives.

Skills

Cloud: GCP (Compute Engine, Cloud Storage, Cloud Run, GKE), AWS basics
DevOps: Terraform, Docker, Kubernetes, CI/CD (GitHub Actions, GitLab CI, Jenkins)
Systems: Linux, Bash scripting, Python scripting, command-line tools
Security & Networking: IAM, VPCs, DNS, firewalls, access controls, Git

Projects

CloudDeploy | *GCP, Terraform, Docker, GKE, CI/CD*

- Built **Infrastructure as Code** solution using Terraform for GCP, automating deployment of containerized applications on GKE with GitHub Actions CI/CD pipeline.

Big-Brain Live | *GCP, Cloud Run, Docker, Python*

- Deployed application on **GCP Cloud Run** with Docker containers, implementing cloud monitoring and logging for performance optimization and reliability.

FinNexus Live | *GCP, Compute Engine, Cloud Storage, IAM*

- Provisioned **GCP infrastructure** with proper IAM roles and access controls, configuring networking (VPCs, firewalls) following security best practices.
