Sahaj Bhadja

(213) 284-4651 bhadja@usc.edu sahaj-bhadja sahajbhadja sahaj-bhadja

Summary

Solutions-focused software engineer pursuing an MSCS with 2+ years supporting **requirements validation**, technical documentation, customer-facing workflows, deployment handoffs, healthcare systems, and reliable platform integrations.

Education

University of Southern California, Los Angeles, CA **August 2024 – May 2026**
Master of Science in Computer Science *GPA: 3.75/4*
Coursework: Analysis of Algorithms, Database Systems, Web Technologies, Advanced NLP

Pandit Deendayal Energy University, Gandhinagar, India **November 2020 – May 2024**
Bachelor of Technology in Computer Science and Engineering *GPA: 3.88/4*
Coursework: Software Engineering, Operating Systems, Object-Oriented Programming, Data Retrieval

Experience

USC Dornsife **Los Angeles, CA**
Software Engineer *September 2025 – Present*

- Built **customer-facing platform workflows** for 500+ users, translating stakeholder requests into APIs, normalized schemas, monitored jobs, validation logic, deployment notes, support documentation, training references, reviews, and reports.
- Improved **operational dashboard reliability** by tuning indexed queries, background jobs, and CI/CD releases, reducing latency from **1.2s to 350ms** while documenting handoffs, troubleshooting steps, requirements, and fixes.

Grad8 **Los Angeles, CA**
Software Engineer Intern *June 2025 – August 2025*

- Developed **support-ready product workflows** handling 10,000+ daily requests, implementing file ingestion, automated checks, documented fixes, sprint delivery ownership, user triage, release reviews, troubleshooting guides, and notes.
- Partnered with users to debug **workflow and data issues** by reproducing OCR, persistence, and execution failures, documenting regression cases, reviewing fixes, and cutting feedback turnaround by **60%**.

Aasma Technology Solutions **India**
Software Developer Engineer - (SecureSync) *August 2023 – July 2024*

- Engineered **cross-platform integration services** using Python, SQL, AWS Glue, and S3, improving response time by **30%** across requirements validation, release reviews, operational handoffs, support workflows, and fixes.
- Maintained **20+ automated validation suites** with Jenkins, PyTest, and Mockito across deployment flows, increasing CI reliability by **68%** while reducing release regressions, support escalations, rework, and defects.

Aasma Technology Solutions **India**
Full Stack Developer Intern - (VibrantChem) *May 2023 – August 2023*

- Built **modular operational services** with REST APIs, WebSockets, and SQL/NoSQL persistence, supporting 2M+ synchronized records across dashboards, integrations, monitoring, debugging, validation, reports, stakeholder reviews, documentation, and notes.
- Automated **Docker-based build and test flows** with Jenkins, cutting release time by **50%** while improving deployment consistency, troubleshooting documentation, implementation handoffs, verification checks, release coordination, and support.

LST Capitals **India**
Web Developer Intern *November 2022 – January 2023*

- Built **customer workflow and reporting features** across web experiences, implementing authentication, real-time synchronization, analytics views, user-facing record management, support notes, dashboards, reports, and summaries for operations teams.
- Delivered **full-stack workflow improvements** by connecting APIs, persistence layers, and interface states, improving booking visibility, transaction tracking, support handoffs, release readiness, operational reporting, documentation, triage, and monitoring.

Skills

Technical: Python, JavaScript, TypeScript, Java, SQL, C++, HTML/CSS, REST APIs, databases, spreadsheets
Solutions: Requirements analysis, needs assessment support, scope documentation, validation, RFI/RFP review readiness
Documentation: Technical guides, troubleshooting steps, process models, deployment notes, user support, training materials
Delivery: Git, GitHub, Docker, Jenkins, CI/CD, Agile/Scrum, Jira-style tracking, testing, release support
Domains: Healthcare workflows, education platforms, monitoring dashboards, integrations, stakeholder communication, Microsoft 365

Projects

HMIS Live | *MERN, TypeScript, ABDM APIs, Sentry*

- Built **healthcare workflow features** integrating patient, provider, claims, notifications, and monitoring capabilities with secure APIs, structured validation, Sentry observability, dashboards, alerts, support notes, documentation, reports, and summaries.

Big-Brain Live | *LLaMA-2, FAISS, Pinecone, PostgreSQL, GCP*

- Built a **document retrieval platform** over 50K+ documents using transformer embeddings and FAISS, enabling contextual Q&A, summarization, access controls, optimized retrieval, user-facing documentation, and search workflows.

Chat2SQL Code | *Java, TypeScript, SQL, Docker*

- Built an **AI-powered SQL workspace** supporting 10+ databases, accelerating query authoring, schema exploration, and database management through Java services, TypeScript interfaces, Docker workflows, validation, reviews, and tests.
