Sahaj Bhadja

(213) 284-4651 sahaj.bhadja@gmail.com sahaj-bhadja sahajbhadja sahaj-bhadja

Summary

Full-stack Software Engineer with 2+ years delivering **Microsoft-stack business applications, web services, SQL systems, cloud deployments, and DevOps automation**, with strong ownership across design, prototyping, testing, release, and support.

Education

University of Southern California, Los Angeles, CA **August 2024 – May 2026**
Master of Science in Computer Science *GPA: 3.75/4*
Coursework: Database Systems, Web Technologies, Advanced NLP, Analysis of Algorithms

Pandit Deendayal Energy University, Gandhinagar, India **November 2020 – May 2024**
Bachelor of Technology in Computer Science and Engineering *GPA: 3.88/4*
Coursework: Software Engineering, Data Structures, Object-Oriented Programming, Operating Systems

Experience

USC Dornsife **September 2025 – Present**
Software Engineer *Los Angeles, CA*

- Architected FastAPI services and Azure SQL workflows for 500+ users, reducing dashboard latency 71% through **normalized schemas, indexed queries, structured logging, error isolation, monitoring, and performance optimization**.
- Translated stakeholder workflows into scalable application features, processing 1K+ concurrent jobs at 3x throughput through **storyboarding, rapid prototyping, asynchronous orchestration, automated testing, deployment, and iterative production support**.

Grad8 **June 2025 – August 2025**
Software Engineer Intern *Los Angeles, CA*

- Delivered React and Flask business workflows for uploads, history, approvals, and feedback, supporting 150+ instructors and 10K+ daily requests through **REST APIs, responsive interfaces, testing, and production releases**.
- Built concurrent Python ingestion for PDF, DOCX, ZIP, OCR, and multimodal routing, reducing turnaround 60% while validating edge cases through **unit tests, structured logging, debugging, and failure recovery**.

Aasma Technology Solutions **August 2023 – July 2024**
Software Developer Engineer - (SecureSync) *India*

- Developed cross-platform integrations using C#, .NET, SQL, and object-oriented patterns, improving API response times 30% while reducing technical debt 20% across **modular business services and cloud data pipelines**.
- Automated 20+ unit and integration suites across Windows and Linux using PyTest, Mockito, Jenkins, and virtual machines, strengthening **CI/CD validation, regression detection, deployment confidence, and maintainable releases**.

Aasma Technology Solutions **May 2023 – August 2023**
Full Stack Developer Intern - (VibrantChem) *India*

- Built ASP.NET Core services and React interfaces for resources, billing, permissions, and notifications, synchronizing 2M+ records through **SQL-backed APIs, Entity Framework, WebSockets, authentication, and reusable frontend components**.
- Automated Docker and Jenkins deployments, reducing release time 50% while using Sentry, Azure Monitor, and Kibana for **application logging, exception tracing, root-cause analysis, and continuous reliability improvement**.

LST Capitals **November 2022 – January 2023**
Web Developer Intern *India*

- Gathered client requirements and presented technical designs for 12+ integrations, mapping booking, payment, coupon, and status workflows through **application architecture, API contracts, iterative prototypes, and implementation planning**.
- Built Flask and Firebase APIs supporting 50K+ records with sub-200-millisecond responses, delivering **integration testing, performance validation, stakeholder demonstrations, bug fixes, and responsive support** through reliable production release.

Skills

Microsoft Stack: C#, .NET, ASP.NET Core, Entity Framework, Azure, Azure SQL, SQL Server, Visual Studio, LINQ, REST APIs
Languages & Web: Python, Java, TypeScript, JavaScript, SQL, React, Node.js, Flask, FastAPI, HTML5, CSS3, WebSockets, JSON
Architecture & Data: Business Applications, Web Services, API Integration, Microservices, PostgreSQL, MySQL, Redis, Data Modeling, Authentication, Role-Based Access
DevOps & Cloud: Azure DevOps, AWS, GCP, Docker, Kubernetes, Jenkins, GitHub Actions, CI/CD, Git, Release Management, Infrastructure Automation
Quality & Delivery: Agile, SDLC, Storyboarding, Prototyping, Unit Testing, Integration Testing, Logging, Error Handling, Debugging, Performance Optimization, Code Reviews, Monitoring, Scalability

Projects

FieldWorks Operations Portal | *C#, ASP.NET Core, React, SQL Server, Azure*

- Designed a **cloud business application** for engineering work orders, field observations, approvals, and document handoffs, combining responsive React workflows, ASP.NET APIs, role permissions, audit history, and offline-safe synchronization.

ServiceMesh Integration Console | *C#, .NET, Azure Functions, SQL Server, OpenTelemetry*

- Built an **API integration and observability platform** with retry policies, structured logging, centralized error handling, performance dashboards, replayable requests, deployment automation, and capacity metrics for scaling internal services.

Chat2SQL | *Java, TypeScript, SQL, Docker, Maven, Node.js* | Code

- Built a cross-platform **natural-language SQL workspace** supporting 10+ databases, schema synchronization, query validation, and Docker-based environments, enabling users to explore complex relational data through reproducible, database-aware workflows.
