Sahaj Bhadja

(213) 284-4651 sahajbhadja10@gmail.com sahaj-bhadja sahajbhadja sahaj-bhadja

Summary

Software Engineer with 2+ years building **customer-facing web applications**, **React/TypeScript** interfaces, scalable backend APIs, and **CI/CD** delivery across cloud-based product teams.

Education

University of Southern California, Los Angeles, CA **August 2024 – May 2026**
Master of Science in Computer Science *GPA: 3.75/4*
Coursework: Web Technologies, Database Systems, Analysis of Algorithms, Advanced NLP

Pandit Deendayal Energy University, Gandhinagar, India **November 2020 – May 2024**
Bachelor of Technology in Computer Science and Engineering *GPA: 3.88/4*
Coursework: Object-Oriented Programming, Software Engineering, Operating Systems, Data Retrieval

Experience

USC Dornsife **September 2025 – Present**
Software Engineer *Los Angeles, CA*
- Built **backend platform** features with normalized SQL schemas, row-level isolation, and indexed dashboards, reducing latency from 1.2 seconds to 350 milliseconds for 500+ campus users across releases.
- Reworked **FastAPI backend** job orchestration with explicit states, failure isolation, and reusable status APIs, processing 1K+ AI tasks while tripling throughput for concurrent user-facing workflows and dashboards.

Grad8 **June 2025 – August 2025**
Software Engineer Intern *Los Angeles, CA*
- Built **React** and Flask grading workflows for uploads, rubrics, history, and model selection, supporting 150+ instructors and 10K+ daily requests through product-facing dashboards and reliable backend APIs.
- Designed **cloud** file-ingestion services on Amazon Web Services with OCR, ThreadPoolExecutor, and secure uploads, reducing feedback turnaround 60% while keeping batch processing reliable, observable, and responsive for instructors during peak submissions.

Aasma Technology Solutions **August 2023 – July 2024**
Software Developer Engineer - (SecureSync) *India*
- Engineered **CI/CD** pipelines for cross-platform microservices with Jenkins, VM automation, and 20+ PyTest, Mockito, unit, and integration suites across Agile release cycles and reviews with QA teammates.
- Troubleshot **Amazon Web Services** API integrations using OOP patterns, SQL workflows, Glue, and S3, improving response times 30% while reducing technical debt 20% across production defects and releases safely.

Aasma Technology Solutions **May 2023 – August 2023**
Full Stack Developer Intern - (VibrantChem) *India*
- Developed **React** and Node resource-management workflows with REST APIs, WebSockets, and modular services, synchronizing 2M+ records across locations with 33% fewer conflicts during staged rollouts and reviews.
- Implemented **Docker** staging and Jenkins CI/CD for authentication, resources, billing, leads, permissions, and notifications, cutting deployment time 50% across release cycles and fixes for product modules safely.

LST Capitals **November 2022 – January 2023**
Web Developer Intern *India*
- Built **TypeScript** booking flows for time-slot selection, reservation tracking, coupon pricing, and payment-status updates across 50K+ records with sub-200-millisecond APIs for cross-platform users during client demos and reviews.
- Designed **customer-facing** architecture for 12+ integration points, aligning Flask APIs, Firebase synchronization, payment webhooks, and client requirements to reduce design errors 25% before implementation handoff and reviews.

Skills

Languages & Foundations: Java, TypeScript, JavaScript, Python, C++, SQL, HTML, CSS, OOP, Data Structures, Algorithms, Software Engineering
Frontend & Product: ReactJS, React, Next.js, React Native, Responsive UI, User-Facing Workflows, Figma
Backend & APIs: Node.js, Flask, FastAPI, REST APIs, WebSockets, Microservices, API Design, Authentication, Payment Webhooks, Background Jobs
Cloud, DevOps & Data: Amazon Web Services, Azure, GCP, Kubernetes, Docker, CI/CD, Jenkins, GitHub Actions, Git, Amazon RDS, S3, PostgreSQL, MongoDB, MySQL, SQL Server, Firebase, Unit Testing, Integration Testing, PyTest, Mockito, Debugging, Agile

Projects

FinNexus Live | *Next.js, TypeScript, Kubernetes, MongoDB, WebSockets*
- Built **Kubernetes** and Next.js fintech platform with TypeScript, MongoDB, Plaid, WebSockets, and CI/CD, supporting secure bank linking and real-time transaction filtering across 1M+ transactions for users online.

Chat2SQL Code | *Java, TypeScript, SQL, Docker, Maven, Node.js*
- Built **Java** and TypeScript SQL workspace supporting 10+ databases, Docker, Maven, Node.js, and schema exploration, accelerating query authoring and cross-platform database workflows from one interface for developers.

HMIS Live | *MERN, TypeScript, Twilio, Sentry, Appwrite*
- Implemented **TypeScript** healthcare workflows with ABDM APIs, Twilio alerts, Sentry monitoring, Appwrite auth, and responsive dashboards, reducing administrative workload 30% through secure appointment automation and notifications reliably.
